## My Current Study In **A**<sub>MU</sub>

As I have mentioned so far in page one of my explanation : I'm studying **Electrical Engineering** in degree program in **AMU** . I have waited here in AMU about 4 years eventhough I'm a 3rd year student. Because of my health problem, I did not attend the fresh man courses in my first coming. Instead I asked withdraw and went to hospital so as to attend my treatment there.

In general I'm not succes in AMU. The weather condition doe not match for my health. I missed many leactures. I do not go library because of its hottness and so on. Cosquently I have not earned much knowledge yet. However I do believe that I will get some knowledg in this practical attachment.

## =>Mikias Hailu Kebede

I was born in 1981 E.C in a town called SHEWAROBIT which is found in Amhara Region, North Shoa "zone". I was grew up with my lovely parents with a great joy and happiness in a poor Ethiopian family standared. I never, forever, forget the love of my parents that stics to my heart rigidly especially, my lovely mother!!! When I was 6 years old ,I was going to Shewarobit primery School in 1987 E.C so as to be inrolled and I have started to learn there. Then when I was completed my elementary education , I was joined Shewarobit Secondary School and complets my second cycle education there. Finally, I was joined Debresina Preparatory School.

## =>Debresina Preparatory School

Debresina Preparatory School is a place where I was studing my education before joining Arba Minch University. I have been learnt there for about two years in order to complet my preparatory program education . The life that I was lived while I was a student of Debresina Preparatory School were very interesting and fantastic. And I was scored an excellent achivment in my study.
